

# APPLIKATOR 4R Plus

By **EMSeal** PTY LTD  
Australian Manufacture Since 1980

Presenting the Applikator 4R Plus, a wide format pressure sensitive laminator with mounting capabilities.

The Applikator can be used to quickly and easily apply a wide range of pressure sensitive materials, including pre-mask or transfer tape, sand blasting or etching resistant vinyl, and clear protective films. Taped decals or vinyl signage can be applied to signs that are already on a substrate (up to 13mm - 1/2" thick) and you can also create your own self adhesive substrates with double sided tape. The mounting of posters, signs and displays is then easily achieved with this laminator.

*'An invaluable addition to any digital printing or sign system.'*

## FEATURES

**4 x 51mm solid steel rollers** coated in EPDM rubber, ground and polished for a very high quality finish.

**Dry mounting** of images onto soft substrates up to 13mm thick without any adjustment to the machine. No air compressor required.

**Upper rewind** for removing release paper.

**Opening rollers** for mounting items up to 13mm (1/2", soft substrates). No air compressor is required.

**3 year warranty** on all parts, including rollers.

**Mobile stand** (pictured above) with locking castors for mobility

## OPTIONAL EXTRAS

- Roller cover for extra safety
- Covered foot switch
- Lower Rewind System

The Applikator can be used with  
**adhesive vinyls • application tapes • double sided adhesive • transfer tapes • protective coatings • cold laminates • anti graffiti film • and more!**
