Rewind System Upper & Lower

Precision Feed Table

Opening Rollers to 13mm

High Volume Cooling Fans

Mobile Trolley

The TriSeal laminator fills your lamination needs, providing high quality results with Both Thermal and Pressure sensitive lamination over a large range of widths. This versatile laminator will transform digital images, photographs, maps and other materials into profitable and resilient signage.

Easy to operate, the user can switch from pressure sensitive lamination to thermal lamination in around 10 minutes.

This machine provides the user with a range of options at an affordable price.

Virtually maintenance free, the TriSeal is available in sizes of up to 1350mm (54") and carries a 3 year parts warranty.
